LYCRA®

FIT400™

A MODERN STRETCH ENGINE. BUILT FOR KNITS.

LYCRA FiT400™ fiber is an all-in-one solution for knit fabrics, built to optimize performance, comfort, and durability. Its bicomponent architecture fuses two distinct polyester polymers into a permanent helical crimp, an innovation that delivers spandex-free stretch, exceptional recovery, and moisture management benefits that last the lifetime of the garment.

WHY A NON-SPANDEX STRETCH SOLUTION MATTERS

As market demand shifts beyond skin-tight silhouettes toward more relaxed, away-from-the-body fits, consumers still expect the comfort of stretch and recovery. That's where LYCRA FiT400™ fiber really shows its worth — it's a non-spandex, mechanical stretch solution that adds the right "give" for all-day comfort and confidence.

CONSUMER BENEFITS

MANUFACTURING BENEFITS

DURABLE PERFORMANCE · DIMENSIONAL STABILITY
MONO-MATERIAL STRETCH

VERSATILE END USES

ACTIVE ESSENTIALS | EVERYDAY BOTTOMS | CORE TOPS | INTIMATES & UNDERWEAR

A FIBER TO MATCH YOUR NEEDS

LYCRA FiT400™ fiber is offered in three formulations, each built on the same high-performance foundation. The difference lies in scope: expanded sustainability credentials and product range for brands that want more.

Delivering the full performance of LYCRA FiT400™ fiber – with third-party certified sustainability credentials that meet the most demanding sourcing standards. All core LYCRA FiT400™ fiber benefits, plus:

- Global Recycled Standard (GRS) certified
- At least 50% pre-consumer recycled PET
- Soft hand & second-skin feel
- Minimum 15% bio-based content
- Can be recycled at end of life
- Extended product offerings, including a broader denier range

Unlocking the signature performance of LYCRA FiT400™ fiber, with added sustainability features and a broader product range. All core LYCRA FiT400™ fiber benefits, plus:

- Soft hand & second-skin feel
- Minimum 15% bio-based content
- Can be recycled at end of life
- Extended product offerings, including a broader denier range

Our entry-level offering, delivering the core performance benefits of LYCRA FiT400™ fiber:

- Lasting fit
- Shape retention
- Durable stretch & recovery
- Moisture management
